Dear Dave,

Thanks for your 7/27 and its worthwhile enclosures.

The mail alone today is overwhelming.

But I've skimmed the cont act, and it we ever have to refer to it I've out it in my file on the Stone movie, th folder, "Related TØ."

Thosechafacters even sold what was not theirs from this contract!

Interesting that the FBI has a file on the Ricky concoctions!

If anything had come of his adventure he'd have been ripe for a fraud charge if he used the mails in particular.

I was certain that Geneva never worked for Ruby and that the picture of the two of them is a poor fake.

Thanks and bes to you both,

Harold
